RE: Foxchase IV – Tinton Falls

To whom it may concern:

There are new requirements for the disposal of recyclable materials. Many items cannot be recycled anymore.

- No plastic bags can be put in the recycling bins.
- Only plastic pourable bottles with a 1 or 2 on the bottom of the container can be recycled.
- Only aluminum and tin cans can be recycled. No foil, plates or trays.
- No grease/food stained cardboard (such as pizza boxes), No waxed cardboard (such as milk cartons).

Attached is a Tinton Falls 2019 Recycling Guide for your residents. Please make this available on your websites, e-mail, etc. Also, please make sure your maintenance workers are aware of these new regulations. Starting February 1, 2019, inspections will begin for compliance. Those not in compliance will not have their recycling collected but will be given the opportunity to correct the violation before any warning notices or summons are issued.

Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink that reads "Jill Pegosh".

Jill Pegosh
Recycling Coordinator

Things to know about recycling from Tinton Falls

Tinton Falls collects recycling “single stream” style from curbside residents and “Comingled” style from businesses and multi-family units. Single Stream means all recycling is put in one container. Comingled means that the cans and bottles go in one container, the mixed paper goes in another container and the cardboard goes in another container.

2019 Recycling Guide

Mandated Recyclables & Sorting

PAPER

Such as cardboard shipping boxes (*waffle section between layers*), flattened, Mixed Paper including, chipboard (*cereal boxes*), white/color paper, junk mail, magazines, softcover books, wrapping paper/non-metallic and Newspapers including inserts are all accepted.

NO: grease/food stained cardboard (*pizza boxes*) or waxed cardboard, food wrappers, paper plates and cups, napkins, paper towels or items from food/ hygiene use, newspaper used for pet waste or household projects.

GLASS BOTTLES AND JARS

Food and beverage bottles and jars (no lids)

NO: ceramics, dishes, glassware, lightbulbs, windows.

METAL CANS

Aluminum cans, Tin cans and Bimetal cans (*tin cans with aluminum lids*) are all accepted. Please rinse. Non-hazardous aerosol cans are also accepted. Empty please. Labels are ok.

NO: aluminum foil, plates, trays, cookware or any metal scarp.

PLASTIC CONTAINERS

Sorting plastic helps produce high-quality recycled products. Manufacturers print a standard code (#1-7) on the bottom of every container. **ONLY** recycle types #1 and #2 with a “pourable” neck smaller than the body.

No. 1 Polyethylene Terephthalate PET, PETE Soft drink, water, soda bottles or No. 2 High Density Polyethylene HDPE Detergent bottles.

NO: plastic bags, margarine tubs, diaper wipes containers, yogurt cups, clear salad containers, food storage containers.

Not Recyclable Put in Regular Trash

DRINKING GLASSES, DISHWARE, WINDOWS, ETC Non-recyclable glass looks different because it’s made from different ingredients and has different melting point. If a ceramic mug is put into a furnace with recyclable glass bottles, for instance, it will melt more slowly causing defects in the process.

NON-RECYCLABLE PLASTIC CONTAINERS, #3 - #7
Margarine Tub, Diaper Wipes, Take-Out Plastics, Bottle Caps and Straws, Etc.

- No. 3 Polyvinyl Chloride PVC, V (*Example: Very hard plastic—what salad bar containers are made of*)
- No. 4 Low Density Polyethylene LDPE (*Example: Fresh produce bags, also used in dry cleaning*)
- No. 5 Polypropylene PP (*Example: Bottle caps, drinking straws, yogurt cups*)
- No. 6 Polystyrene (*Example: Styrofoam*)
- No. 7 Other Ex: Polycarbonate baby bottles.

NON-RECYCLABLE PLASTIC CONTAINERS #1 - #2

Tupperware, Plastic containers with wrong size neck, Some containers, even if they have #1 or #2, are made from a different process, and **CANNOT** be recycled at this time. If the neck is the same size as the body, throw them in the regular trash, (*along with caps, which are made from yet another, harder plastic to withstand twisting/turning*).

PLASTIC BAGS These clog machines at the processing plants. Return to store or re-use.

ALUMINUM FOIL, PLATES, TRAYS OR COOKWARE

Food stained pizza boxes and waxed cardboard food wrappers, paper plates and cups, napkins, paper towels.
